

Joshua Usselman

San Francisco, California

usselmanjosh@gmail.com www.linkedin.com/in/joshuausselman github.com/jusselman joshusselman.com

Having pursued the fields of education and technology in Europe and Latin America, Joshua relocated to the San Francisco Bay Area to further his education in web applications and software development. Effective team-player, strategic thinker, and innovative creator who develops seamless applications that are uniquely tailored to clients' needs. Seasoned epicurean.

Technologies: React, MongoDB, ExpressJS, Node, Javascript, Django, Postgres, Python

Projects:

- RTHH:(add dates) Short for Rhythm, this social media platform offers users an interface to program and share music from anywhere, connecting musicians around the world. This app was constructed with the MERN stack <http://rthh.herokuapp.com>
- Bandtogether: Born from my hatred of concert service fees, this software will provide venues, promoters, and musicians alike a free means of booking and promoting performances, cutting out the middlemen and passing the savings on to the audience. Bandtogether was created with Python, Django and Postgres <http://bandtogether-lmj.herokuapp.com>

PROFESSIONAL BACKGROUND:

Software Engineer Student, *General Assembly July, 2019 - October, 2019*

- Immersive software engineering program focused on MERN full stack development
- Designed applications cross-functionally between front-end design and back-end models
- Collaborated with team to produce professional quality software

Freelance Web Developer, *Self-Employed April, 2018 - July, 2019*

- Consulted with clients to outline website goals, illustrate wire frame and site functionality
- Maintained websites by updating content, implementing new technology and monitoring performance
- Designed and shaped graphics, corrected image issues, and formatted company logos

Funeral Director, *Driscoll's Valencia St Mortuary – San Francisco, California December, 2014 - April, 2018*

- Held meetings with grieving families in order to plan funeral arrangements
- Maintained correspondence with county clerks, health departments, consulates, the California Secretary of State and receiving funeral homes in foreign countries

EDUCATIONAL BACKGROUND:

- Web Developer Certificate, Codify Academy – San Francisco, CA, December, 2017
- Bachelors of Arts: Spanish, University of Oregon – Eugene, OR, June 16, 2007
